Since debuting in 2005, Symphony On The Rocks has entertained sold out audiences around the midwest. Fronted by the Vic Ferrari Band, a nationally acclaimed variety band with over 2,300 performances, the seven member band plays crowd favorites from the 60s to today while supported by a 26 person symphony! This is no ordinary symphony concert – the huge symphony sound is backed by outstanding audio and video production that produces the look and feel of a rock show. Symphony On The Rocks is high energy and excitement like none other.

Why bring Symphony On The Rocks to your University?

YOUR STUDENTS will:

- Use the technology of Hollywood, click-track, making this a great learning experience, allowing for shorter rehearsal time, and can be performed with or without conductor.
- Play off iPads (we'll provide the special stands, if they have the tablet) or music stand. We'll send both print music and pdf files so your students can choose how they want to read their parts.
- Play outstanding original orchestral arrangements of songs they recognize. Scored for a 26 person symphony, we can double parts to include more students if needed. Our arrangements are for a proper symphony, with a full compliments of winds, brass and percussion.
- Intern with the production crew for the day, if any are interested in the behind the scenes our outstanding crew will be their in-the-field educators.
- Learn from experience with masterclass topics like "Marketing a Musician" "Booking Your Act" and "Establishing a Collaborative Musical Environment" available while we're on campus.
- Perform alongside veterans from Vic Ferrari to create an outstanding musical product filled with energy and excitement.
- Be excited to invite their friends to this concert!

What is included? EVERYTHING! We provide:

- The Vic Ferrari Band with countless hours of performing experience
- Music in both pdf and print form for all symphony members
- Masterclasses and internship opportunities while we're on campus
- Backline for the band including: drums sets, auxiliary percussion, guitars
- Full production to make it look "rock concert cool" including lights, audio, video screens, etc.
- Advertising materials, templates to promote the show including: two poster designs (horizontal and vertical), ticket design, 4x6 postal mailer design, television commercial.
